Description of Change<br>Baseline for DDTS is curre                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                         |                                  |                                    | er supporte             | d by vendor               |                        |                  |                       |  |
| 29. Proposed Solution: (use additional sheets if necessary)  Recommended to use DDTS 4.1 to obtain vendor support. Version 4.1 with ECS customization has been successfully evaluated in the EDF and is now ready to be installed and evaluated in VATC (Reference to CCR 98-0113, it was tested on CUJO instead of AMAZON and DDTS version 4.1 instead of DDTS 4.0), installaring finishment of sudding any control of suddi |                                         |                                  |                                    |                         |                           |                        |                  |                       |  |
| 31. Consequences if Change(s) are not approved: (use additional sheets if necessary) current 3.2.1 version will not be supported by Vendor, also 3.2.1 is not Y2k compliance                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                         |                                  |                                    |                         |                           |                        |                  |                       |  |
